# South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

### WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

*Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...*

Coastal Montessori Charter School SCDE Summer Survey Narrative Coastal Montessori Charter School supports each student as she/he develops the world class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing a safe, nurturing, and challenging academic learning environment. We provide such an environment through the implementation of a Montessori curriculum dedicated to cultivating the whole child, including their social, emotional, and academic intelligences. We demonstrate this vision by employing, training, and supporting a high-quality staff able to prepare a Montessori environment and implement a Montessori curriculum aligned with the South Carolina standards. We meet students where they are and take each to his/her potential. The teaching staff at Coastal Montessori Charter School are always seeking opportunities to learn new and effective strategies to use in the classroom such as: peace education, Step Up to Writing training, Positive Discipline training, Running Records, small group guided reading, Montessori Model United Nations, STEM, Math workshops in collaboration with Coastal Carolina University, magazines and articles from the National Council of Teachers of Mathematics, and workshops in Montessori education provided by the American Montessori Society. We know we must model what it looks like and sounds like to be a life long learner and we take this duty seriously. At Coastal Montessori Charter School we also provide various opportunities for students to develop what we like to call the seven survival skills: critical thinking, problem solving, self-regulation, taking initiative, communication, inquisitiveness, and the ability to work as part of a team. Some ways students practice these skills include: group research/science projects and presentations, Upper Elementary students buddy reading with Lower Elementary students, students using individualized work plans to guide their decision making as they self-regulate their learning, opportunities for students to meet with experts and authors in order to further their understanding of the word and the world, making and sharing healthful snacks, and students developing strategic plans for addressing needs and wants they would like to experience as students at our school. Coastal Montessori Charter School believes the school, family, and community share the educational responsibility of our young people. Building future South Carolina graduates and world leaders is a team effort and we are committed to upholding our charter goals and ensuring each student graduating from Coastal Montessori Charter School is prepared for life. Nathalie Hunt, PhD Director
